

With offices in France, Germany, Japan, Korea, Greater China and the U.S.A, Yole the « More than Moore » company, provides market research, technology analysis, strategic consulting, media services and financial services to a worldwide customer base.

Covering emerging and disruptive silicon and micro manufacturing markets, the group supports companies, investors and R&D organizations by delivering comprehensive analysis that helps them understand the markets and technology trends critical to their business

JOB DESCRIPTION

As part of the strong growth of our business, we create a position of **Economist**. The objective is to complete our technological and market approach by bringing a new perspective to our analysis.

In an international and multicultural context, you will work in close collaboration with all the analysts of our three divisions (Power & Wireless, Semiconductor & Software as well as Photonics and Sensing Division) and have the opportunity to enrich our analysis through your economic and geopolitical vision.

The position is based in the Yole HQ (Lyon, France) and regular business trips (Europe, USA, Asia) are expected.

YOUR RESPONSABILITIES

As an **Economist**, you will be responsible for :

- Structuring and quarterly updating the existing Database on end products in the electronic field
- Identifying multiple sources and collecting data at the international level
- Quantifying the Market on the Electronic base (consumer, data center, automotive...)
- Identifying, analyzing, and interpreting markets trends
- Understanding the impact of the emergence of new or improved technologies
- Explaining results of your research to the Analysts and providing your analysis
- Participating in projects and custom studies for which your expertise may be required
- Attending to dedicated trade shows worldwide
- In the medium term, publishing articles, writing reports and ensuring conference presentations.

EDUCATION / EXPERIENCE

- Minimum 3 years of experience as an Economist or Data Administrator
- Master Degree in Economic Science or equivalent
- Required English level : minimum CECR - C1 / TOEIC 900
- Strong interest in electronics technological innovations
- Analytical skills with strong ability to collect, organize and present significant amounts of information
