Our company proposes different Team Lead Analyst positions to help us further develop our activities in the following fields: Packaging, Semiconductor Manufacturing, Power Electronics, Compound Semiconductor, Sensing and Imaging.

Depending on your expertise, you will be in charge of customer relationship, high-budget and high-volume projects management and you will also have the managerial responsibility of your team.

The position would be ideally based in Villeurbanne, France (HQ), but remote is possible.

Regular business trips (Europe, USA, Asia) are expected.

YOUR RESPONSABILITIES

As a **Team Lead Analyst** you will be responsible for:

- Developing and plan a convincing strategy for the activity lead
- Leading at least a team of 2 Analysts, by identifying their key competencies and make them grow
- Executing technical, marketing, and strategic analysis
- Executing projects within a given timeframe and budget
- Managing the customer relationship by identifying their needs and report opportunities
- Producing reports, custom projects on field from the activity. Leading the topics selection and the planning of the products
- Providing a support on strategic analysis and financial projects
- Participating in dedicated trade shows worldwide and giving presentations at international conferences

EDUCATION / EXPERIENCE

- University Degree (Masters, Engineer, PhD) in a semiconductor related field is mandatory.
- Proven management of a team would be a strong plus.
- Good understanding of technology and industry insights
- Fluent in English (minimum CI level – TOEIC 800)
