

TECHNOLOGY & MARKET ANALYST | SEMICONDUCTOR MANUFACTURING

With offices in France, Germany, Japan, Greater China and the U.S.A, Yole Développement (Yole) the « More than Moore » company, provides market research, technology analysis, strategic consulting, media services and financial services to a worldwide customer base.

Covering emerging and disruptive silicon and micro manufacturing markets, the group supports companies, investors and R&D organizations by delivering comprehensive analysis that helps them understand the markets and technology trends critical to their business.

JOB DESCRIPTION

Our company proposes immediate openings for a **Technology & Market Analyst** position to strengthen our **Manufacturing activities** by performing market, technology, and strategic analysis.

You will work in close collaboration within the Semiconductor, Memory & Computing Division and you will also take part in the projects of the other Divisions (Power & Wireless and Photonics & Sensing) if needed.

The position would be ideally based in Villeurbanne, France (HQ), but remote is possible.

Regular business trips (Europe, USA, Asia) are expected.

YOUR RESPONSABILITIES

As a Manufacturing Expert, you will be responsible to :

- Execute technical, marketing, and strategic analysis
- Oversee technology and industry insights from semiconductor manufacturing market trends from front-end of line to back-end
- Understand the impact of the emergence of new or improved technologies in various applications
- Identify Technology roadmaps and new process developments.
- Be in contacts with major Equipment and materials suppliers worldwide among the semiconductor process steps covered at Yole : lithography, deposition, etching, thinning, die to wafer and wafer to wafer bonding, dicing...
- Collect information and promote our activities in international conferences and dedicated trade-shows
- Execute projects within a timeframe given by your Manager and report to him.

EDUCATION / EXPERIENCE

- Experience (3-10 years) in the semiconductor field
- Good knowledge of the semiconductor manufacturing
- University Degree (Master, Engineer, PhD) in a semiconductor-related field is mandatory
- Strong interest in product market entry / applications (marketing, strategic planning, etc.).
- Required English level : minimum CECR - CI / TOEIC 800.
- Proficiency in French is mandatory
