

TECHNOLOGY & MARKET ANALYST | RADIOFREQUENCY

With offices in France, Germany, Japan, Greater China and the U.S.A, Yole Développement (Yole) the « More than Moore » company, provides market research, technology analysis, strategic consulting, media services and financial services to a worldwide customer base.

Covering emerging and disruptive silicon and micro manufacturing markets, the group supports companies, investors and R&D organizations by delivering comprehensive analysis that helps them understand the markets and technology trends critical to their business.

JOB DESCRIPTION

Our company proposes an immediate opening for a **Technology and Market Analyst** to help us further develop our **RF activities** by performing market, technology, and strategic analysis.

You will work in close collaboration within the Power & Wireless team with our RF analysts as well as our Compound Semiconductors, Power Electronics & EV-HEV analysts. You will also take part in the projects of the other Divisions (Semiconductor, Memory & Computing and Photonics & Sensing) if needed.

The position would be ideally based in Villeurbanne, France (HQ), but remote is possible.

Regular business trips (Europe, USA, Asia) are expected.

RESPONSABILITIES

As a **RF Technology & Market Analyst**, you will be responsible to:

- Execute technical, marketing, and strategic analysis
- Oversee technology and industry insights from RF market trends, components and modules (power amplifiers, filters, switches, front-end & connectivity modules), to end-applications (Industrial, Consumer, Automotive, Medical, Defense, Aerospace...).
- Understand the impact of the emergence of new or improved technologies.
- Execute projects within a given timeframe and budget.
- Create and manage long-term relationships with customers.
- Collect information and promote our activities in conferences and dedicated trade-shows.
- Give presentations at international conferences and workshops.

EDUCATION / EXPERIENCE

- Experience required (3 years minimum) in the RF field.
- University Degree (Masters, Engineer, PhD) in a semiconductor and/or RF related field is mandatory.
- Good knowledge of the worldwide RF market place.
- Strong interest in product market entry / applications (marketing, strategic planning, etc.).
- Effective communication and interpersonal skills.
- Fluent in English (minimum CECR - CI / TOEIC 800).
