You will be part of the Power & Wireless Division and you will also take part in the projects of the other Divisions (Photonics & Sensing and Semiconductor, Memory & Computing Division) if needed.

The position would be ideally based in Villeurbanne, France (HQ), but remote is possible.

Regular business trips (Europe, USA, Asia) are expected

### YOUR RESPONSABILITIES

As a **Team Lead Analyst** you will be responsible for:

- Developing and plan a convincing strategy for the activity lead
- Leading at least a team of 2 Analysts, by identifying their key competencies and make them grow
- Executing technical, marketing, and strategic analysis
- Executing projects within a given timeframe and budget
- Managing the customer relationship by identifying their needs and report opportunities
- Producing reports, custom projects on field from the activity. Leading the topics selection and the planning of the products
- Providing a support on strategic analysis and financial projects
- Participating in dedicated trade shows worldwide and giving presentations at international conferences

### EDUCATION / EXPERIENCE

- University Degree (Masters, Engineer, PhD) in a semiconductor related field is mandatory.
- Proven management of a team would be a strong plus.
- Good understanding of technology and industry insights
- Fluent in English (minimum CI level – TOEIC 800)
