

## TECHNOLOGY & MARKET ANALYST | COMPOUND SEMICONDUCTORS

With offices in France, Germany, Japan, Greater China and the U.S.A, Yole Développement (Yole) the « More than Moore » company, provides market research, technology analysis, strategic consulting, media services and financial services to a worldwide customer base.

Covering emerging and disruptive silicon and micro manufacturing markets, the group supports companies, investors and R&D organizations by delivering comprehensive analysis that helps them understand the markets and technology trends critical to their business.

### JOB DESCRIPTION

Our company proposes an immediate opening for a **Technology and Market Analyst** position to strengthen our **Compound Semiconductors activities** by performing market, technology, and strategic analysis.

You will work in close collaboration within the Power & Wireless team as well as take part in the projects of the different Divisions (Semiconductor Computing & Memory and Photonics & Sensing).

The position will ideally be based in France (Headquarter) but remote work is possible.

Regular business trips (Europe, USA, Asia) are expected.

### RESPONSABILITIES

As an Analyst, you will be responsible for

- Performing market, technical and strategic analyses,
- Overseeing technology and industry insights from substrates, epitaxy, device or module fabrication.
- Understanding the impact of the emergence of new or improved compound semiconductor technologies (InP, SiC, GaN, GaAs...) for end applications (Optoelectronic, RF, etc.)
- Managing projects within a given timeframe and budget,
- Supporting the business development and customer relationship management worldwide
- Identifying opportunities and provide support to close deals for custom analysis
- Establishing and managing long-term relationships with customers,
- Participating in dedicated trade shows and conferences worldwide,
- Giving presentations at International conferences and workshops.

### EDUCATION / EXPERIENCE

- Experience (3 years minimum) in the Compound Semiconductor field. Experience in InP or Optoelectronics field would be a plus.
- University Degree (Master, Engineer, PhD) in a semiconductor-related field is mandatory
- Strong interest in product market entry / applications (marketing, strategic planning, etc.)
- Required English level : minimum CECR - C1 / TOEIC 800
- Proficiency in Chinese or Japanese would be a plus.
